

MUHAMMAD AIMAN BIN RASMAN

Bachelor of Computer Science (Computer Network Security) with Honors

Butterworth, Penang | 0134081460 | muhdaiman2174@gmail.com | [LinkedIn](#) | [E-Portfolio](#)

Internship Duration: 6 Months (27 September 2026 – 26 March 2027)

SUMMARY

High-achieving Bachelor of Computer Science (Computer Network Security) undergraduate at Universiti Sultan Zainal Abidin (UniSZA), with consistent Dean's List performance and a **CGPA of 3.77**. Experienced in developing **end-to-end technical projects** involving **secure image steganography**, **IoT-based** systems, and **cryptographic algorithm** implementation. Proficient in **Python**, **Kali Linux**, and **network forensic** tools such as **Wireshark** and **Volatility**, with hands-on exposure to **vulnerability scanning**, **penetration testing** phases, and **secure data transmission** protocols. Possesses strong **analytical thinking** and **problem-solving** skills, with a **fast ability** to adapt to emerging cyber threats and new **security technologies**. Passionate about safeguarding digital infrastructure and building resilient, secure systems. Seeking an internship opportunity in cybersecurity, network defence, or digital forensics-related roles

CORE COMPETENCIES

- Network Security & Cryptography
- Network Simulation & Analysis
- Cybersecurity Operations
- Strategic Leadership & Management
- Digital Transformation & Marketing
- Project Management & Execution

EDUCATION

Universiti Sultan Zainal Abidin | 2023 - Present

- Learn Computer Science fundamental in the freshman (Computer Organization, Discrete Structure and Database Management) before majoring in depth of Network Security.
- Current CGPA: **3.77/4.00**. (Dean's List semester 1,2,3,4,5)

PROJECTS

Secure Data Transmission (Point-to-Point Communication) Using Image Steganography | On Going

- Engineered a secure image steganography method by integrating **PRNG**, **XOR**, and **LSB** techniques to ensure robust data concealment and **prevent unauthorized access**.
- Utilized **ESP32** microcontrollers to establish an encrypted, **point-to-point communication** channel for **safe data transmission**.

SortBuddy (Smart Sorting Garbage bin) | May 2025 – June 2025

- Developed an **autonomous robotic system** utilizing and **AI-driven** vision system for real-time classification and sorting of recyclable waste streams (plastics, aluminium, paper).

Simulation of Emergency Medical Services using MANET Routing Protocols (AODV & DSDV) in NS3 | April 2025 – May 2025

- Developed a simulation framework to **model real-time**, decentralized communication among mobile nodes in infrastructure-limited environments, emulating emergency medical response scenarios.
- Evaluated and compared **AODV** and **DSDV** routing protocols based on route discovery time, packet delivery ratio, and network reliability to identify **optimal support** for real-time operations.

WORK EXPERIENCE

Retailer – Al-Ikhsan Sports | July 2025 – October 2025

- **Resilience:** Maintaining **high performance** handling over **50 customers a day** and a professional demeanour in **fast-paced environment**.

- **Interpersonal Communication:** Ability to **translate complex information** (product specs/policies) into **clear, understandable** terms for diverse audiences.

Food and Beverage – McDonald’s | July 2024 – October 2024

- **Adaptability:** Quickly **pivoting** between **different roles** based on immediate team needs.
- **Workflow Optimization:** Ability to execute tasks in a **time-sensitive environment** where efficiency directly impacts results.

LEADERSHIP AND INVOLVEMENT

RoboPro Club – Lead Trainee Executive | October 2025 - Present

- Handle a **structured training** sessions to primary school students and educators **over 60 participants** on fundamental concepts of embedded systems and programming utilizing the **ESP8266** microcontroller, bridging theoretical knowledge with **hands-on application**.
- Conducted workshops on **3D modelling** using **Tinkercad**, instructing participants in computer-aided design principles to create custom enclosures and structural components.

SULAM Project – Digital Transformation for Kedai Masakan Tokma

Enterprise | March 2025 – October 2025

- Collaborated in a team to digitalize operations for a local SME, improving **online presence** and **customer reach** through social media.
- Boosted brand visibility from **0 to 1,029 followers** and **2,583 likes**, significantly increased and **attracting new customers** beyond walk-in traffic and boosted the **sales of the shop**.

Program Director – Co-Curriculum (Projek Khidmat Masyarakat) | March 2024 – October 2024

- Lead a team of **50 committee members**, delegating responsibilities across logistics, finance, publicity, and **program content** to ensure seamless implementation.
- Coordinated logistical operations, stakeholder engagement, and resource mobilization to deliver impactful community outreach aligned with program objectives.

Treasurer – Jawatankuasa Perwakilan Pelajar (JPP) | August 2022 – July 2023

- **Lead** and **represented** the **student body** in matters related to welfare and **university affairs**.
- **Coordinated** with **university management** to address **student concerns** and **initiatives**.

Minggu Penyelidikan Inovasi 2025 (MPI25) | April 2025 – May 2025

- SortBuddy (Smart Sorting Garbage bin) - **Bronze Award**

Virtual Innovation Competition 2025 (VIC25) | June 2025 – July 2025

- SortBuddy (Smart Sorting Garbage bin) - **Gold Award**

Capture The Flag UniSZA X UMK (CTF3.0) | January 2026

- **Bronze Award**

AWARD

Anugerah Tokoh Pelajar

- Recognized for maintaining a **consistent academic record** with a CGPA **above 3.50** and achieving the **Dean’s List every semester**. Granted through the **unanimous endorsement of the faculty**, acknowledging not only sustained technical excellence but also a high level of **personal integrity** and **leadership** within the **academic community**

ADDITIONAL INFORMATION

Tools: Wireshark, Burp Suite, Metasploit, Nmap, Autopsy, FTK Imager, Hashcat, Exiftool, HxD

Languages: Malay (Native), English (Fluent), Japanese (Beginner)
